**HAS NARROW ESCAPE.**  
Mr. Robt. Reinecke, the Pascagoula street groceryman, while operating the electric coffee mill in his store one day early this week, got a severe shock and was rendered unconscious for several hours. The wires must have been short circuited in the machine, for he received the full voltage of the wire, the current passing entirely through his body, burning his hands and feet severely. A hole was burned in both his shoes where the charge passed into the floor. Mr. Reinecke has been confined to his bed all the week but is improving.

**TO MY FRIENDS AND CUSTOMERS.**

On account of conditions caused by the war I find it impossible to keep a force of solicitors to call on you daily for your orders, so I have decided rather than be disappointing you every day or two that I would discontinue sending out solicitors. I now ask that all the ladies of Pascagoula and South Pascagoula kindly assist me in my efforts to serve them by phoning or sending me their orders daily or as often as they find necessary. I will greatly appreciate their orders and guarantee them the best service possible. My delivery will leave the store at certain hours each day for your place. Should you not know this hour please ask. Give me your order prior to that hour and you will be delighted with the service.

## Telephone Service Hampered by Illness of Operators

Owing to illness from influenza, all of our regular operators with one exception have been absent from duty for the past ten days.

It is impossible to secure trained operators to take their places and, as a matter of public safety, it is impracticable to bring operators from other points and subject them to the dangers of the epidemic.

The telephone traffic in Pascagoula is so heavy that with every available operator at work it has been difficult for us to handle the local and long distance business. It is impossible to render adequate service unless we have the co-operation of the entire telephone-using public.

You are urged not to make local or long distance telephone calls except in cases of absolute necessity. Ordinary business and social calls must be eliminated so that the traffic may be reduced to the point where in can be handled efficiently by the limited number of operators who are able to perform their duties.

If you make unnecessary calls you will interfere with the emergency needs of the community and prevent us from handling the calls which are absolutely essential.

Only through the patriotic co-operation of the entire telephone-using public can we successfully cope with this serious situation and render service for the essential needs of the public.
